SensiDO Oxidant 2,1 %

INCI	EXPLANATION
Aqua / Water	Solvent.
Hydrogen Peroxide	Decomposes readily into water and oxygen with release of heat, and therefore does not cause any long-term problems for the environment or the population.
Acrylates/Steareth-20 Methacrylate Copolymer	Negatively charged polymeric ingredient
Allantoin	Conditioning, protecting, softening and soothing ingredient.
Tetrasodium Etidronate	Neutralizes contaminants found in water, for example heavy metals and salts, renders them water-soluble and thus to be easily rinsed out. Contributes to the product's shelf life. Prevents changes in hair color and creates a more successful foundation for color, bleaching and perm treatments. Effective synergy with EDTA.
Etidronic Acid	Neutralizes contaminants found in water, for example heavy metals and salts, renders them water-soluble. Contributes to the product's shelf life. Prevents changes in hair color and creates a more successful foundation for color, bleaching and perm treatments.
Sodium Stannate	Stabilizing agent
Acetanilid	Stabilizes the structure of the product
