DS Hair Serum

INCI	EXPLANATION
Cyclopentasiloxane	Extremely light, volatile silicone grade that acts as a solvent.
Dimethiconol	Moisturizing
Argania Spinosa Kernel Oil	Argan oil is absorbed by the hair strand and due to its versatile composition it adds shine, softness, strength and protection on damaged hair. It revives in particular treated, colored and dry hair repairing split ends. It will also provide thermal and UV protection. A powerful antioxidant. Skin-friendly.
Trimethylsiloxyphenyl Dimethicone	Shine enhancing silicone.
Ethylhexyl Methoxycinnamate	Cationic hair protective UV filter.
