## Forme Volume Shampoo

| INCI                    | EXPLANATION   |
|-------------------------|---|
| Aqua                    | Purified water, solvent.  |
| Sodium Laureth Sulfate  | Surface active detergent, gives good foam.  |
| Cocamidopropyl Betaine  | Mild surfactant, washes without irritating skin.  |
| Decyl Glucoside         | Mild surfactant, washes without irritating skin.  |
| Sodium Cocoamphoacetate | Surfactant  |
| Glycerin                | Glycerin, moisturizing solvent.   |
| Sodium Chloride         | Adjusts the thickness of the product.   |
| Avena Sativa Kernel Oil | Finnish, comes from Fazer. Natural oil, that is produced by extraction. Oat oil has high lipid content compared to other grain types. Oat oil is gluten free and vegan.BENEFITS:Oat oil does not irritate skin so it is suitable also for sensitive skins. It helps improve skin barrier and maintain natural moisture balance. Oat oil also moisturizes and nourishes hair. Adds softness and manageability to hair. Absorbs easily and doesn't weigh hair down. OAT OIL CONTAINS:Omega-6 fatty acids Oat oil contains three times more linoleic acid (Omega-6) compared to olive oil. Linoleic acid is present in the outer layer of the skin (epidermis). It is an important component of cell membranes, the lack of which can result in e.g. flaking the skin. Linoleic acid moisturizes, gives UV protection and has anti-inflammatory effect. Vitamin E and antioxidants Vitamin E is a widely used ingredient in cosmetics, which is also known as tocopherol. It is a very effective antioxidant, that helps prevent the negative effects of free radicals on skin cells, e.g. reduces or slows down the signs of skin aging. It has also been shown to help maintain and restore skin's natural barrier. This helps prevent scalp dryness and maintain its good condition, promoting overall hair well-being. Vitamin E also helps prevent and reduce signs of skin inflammation. Ceramides and Avenanthramides High in ceramide lipids oat oil strengthens hair keratin, repairs and smoothes the surface of the hair and helps retain moisture. On skin ceramides help protect skin surface and prevent dryness. Oats also contain a unique group of phenolic alkaloids - Avenanthramides. Mainly found in oats, these antioxidants have anti-inflammatory, anti-itching and anti-irritant effects. |

| Polyquaternium-67                              | Special polymer which provides volume and conditioning.   |
|--|---|
| Guar Hydroxypropyltrimonium Chloride           | Plant-derived cationic polymer. Enhances combability, handling and improves shine. The hair feels soft. Improves foam quality in shampoos.              |
| Methoxy PEG/PPG-7/3 Aminopropyl<br>Dimethicone | Water-soluble silicone. Excellent conditioning properties. Enhances the efficacy of active substances. Gives volume to hair, excellent wet combability. |
| Cocamidopropylamine Oxide                      | Detargent   |
| PEG-4 Rapeseedamide                            | Also restores oil which is removed during washing, thus preventing drying of the skin and hair.   |
| Polysorbate 20                                 | Contributes to the solubility of the raw materials  |
| PEG-40 Hydrogenated Castor Oil                 | Contributes to the solubility of the raw materials  |
| Ethylhexyl Methoxycinnamate                    | Cationic hair protective UV filter.   |
| Parfum   | Perfume   |
| Citronellol                                    | Perfume component   |
| Geraniol                                       | Perfume component   |
| Hexyl Cinnamal                                 | Perfume component   |
| Limonene                                       | Perfume component   |
| Linalool                                       | Perfume component   |
| Tetramethyl Acetyloctahydronaphthalenes        | Perfume component   |
| Phenoxyethanol                                 | Preservative  |
| Iodopropynyl Butylcarbamate                    | Preservative  |
| Citric Acid                                    | Adjusts the product's pH value suitable for hair and skin.  |
