## DS Intensive Moisture Mask

| INCI   | EXPLANATION   |
|--|---|
| Aqua   | Purified water, solvent.  |
| Cetearyl Alcohol   | Forms the viscosity of the product.   |
| Stearamidopropyl Dimethylamine                           | Cationic polymer which reduces frizz and effectively improves both wet and dry combing. An effective hair conditioning and softening effect, particularly for hair in poor condition. |
| Amodimethicone/Morpholinomethyl Silsesquioxane Copolymer | Silicone which detangles and provides color protection, does not weigh down fine hair. Makes hair silky soft and shiny. Provides thermal protection.                                  |
| Cetrimonium Methosulfate                                 | Cationic hair conditioning agent. Improves combability, leaves hair soft and protects hair from mechanical stress like combing.   |
| Quaternium-91  | Hair conditioning and softening ingredient, contributes to longer lasting hair color.   |
| Betaine  | Betaine. Moisturizes, conditions and softens the skin and hair. Reduces skin irritation possibly caused by other substances.  |
| Sorbitol   | Moisturizing, conditioning  |
| Panthenol  | Pro-vitamin B5. Hydrates and protects hair and scalp. Antiseptic.   |
| Dimethylpabamidopropyl Laurdimonium Tosylate             | Cationic hair protective agent. Protects hair from the sun's damaging effects and prevents hair discoloration. Eases handling of hair.  |
| Ethylhexyl Methoxycinnamate                              | Cationic hair protective UV filter.   |
| Glycerin   | Glycerin, moisturizing solvent.   |
| Hydroxyethylcellulose                                    | Thickener, gelling agent  |
| Methoxy PEG/PPG-7/3 Aminopropyl Dimethicone              | Water-soluble silicone. Excellent conditioning properties. Enhances the efficacy of active substances. Gives volume to hair, excellent wet combability.                               |
| Trideceth-5  | Emulsifier, surface active ingredient   |
| Phenoxyethanol, Ethylhexylglycerin                       | Maintains the safety and the structure of the product.  |
| Lactic Acid  | pH adjustment   |
| Citric Acid  | Adjusts the product's pH value suitable for hair and skin.  |
